

LAUNCH OF VIJAYAWADA CITY POLICE WEBSITE & SOCIAL MEDIA

- Keeping in with 'technology driven policing initiatives' in AP Police, a New Refurbished and Upgraded Website and Social Media Page of Vijayawada City Police www.vijayawadapolice.ap.gov.in is being launched for the citizens to access information with ease and at the same time seek police services as and when necessary.
- The Website and the Social Media platforms (Facebook Page and You tube) would enable the citizens to interface and connect with the police in a more seamless and interactive manner. It is anticipated that by these mediums the citizens would also participate and join hands with the police towards keeping their city safe and secure.
- The above is also keeping with 'Friendly Policing' initiatives of AP Police in an attempt to reach out to the citizens in a more user friendly manner and promote 'community participation' in policing.
- The new web site is technically advanced, user friendly and the content management is also simple. The web site is hosted in NIC servers.
- It offers many services to the citizens including locating the Police station, knowing the FIR case status, Passport verification status, Petition status etc.
- The website also gives information about the various initiatives taken up by the Vijayawada city Police under the caption "One Idea can change Vijayawada" apart from useful information to the various cross section of the citizens including NRIs, foreigners, Women and children.
- Since Vijayawada city has lot of expat population, the web site also gives important news about the city under the caption "Bezawada Kaburlu" apart from facilitating them to reach out to the police for services, if any, sitting across continents.
- Another feature of the website under the caption "Special Events", gives information about the upcoming important events / festivals. General information about the places of interest to visit around Vijayawada etc relevant to the visitors and tourists are also incorporated.
- Police Station contact details and jurisdictions are also demarcated (Geo-fenced) enabling one to get absolute clarity as regards jurisdiction of the Police Stations. It is a comprehensive website which will be useful to the various sections of the society.
- An in house capacity to maintain and update the website and the Social Media platforms has been put in place for a sustained engagement.
